

Lakeside Park Limited Access

Work will begin on June 20, 2014 on C.A. Roan for a new development called The Vineyards. Lakeside Park will have limited access during this phase of construction. The immediate work zone is at the intersection of C.A. Roan and Miller. There will be no access to the park by vehicle or on foot from this entrance. The park will have to be accessed from Garner Road. The City has coordinated with the developer to provide a secondary emergency evacuation route, in the event that needs to be utilized. The contractor has placed message boards and detour signs to alleviate as much confusion as possible. The work should last between 6-8 weeks.

Below is a map of the detour to the park:
